### THEO. P. HAUGHEY, Pres't. E. E. REXFORD, Cash'r. CONDITION OF THE MARKETS

After a Quiet Morning, May Wheat Turns

Upward and Closes at an Advance.

Corn Dull and Inactive, but Steady-Light Transactions in Oats-Provisions Fairly Active and Higher at the Close.

#### MONEY, STOCKS AND BONDS.

The Market More Active, but Exceedingly Weak for a Few Prominent Shares. NEW YORK, March 29.-Money on call was easy at 31926 per cent., the last loan being made at 5 per cent., closing offered at 5.

Prime mercantile paper 44264 per cent. Sterling exchange dull but steady at \$4.86 for sixty-day bills and \$4.88% for demand.

The total sales of stocks to-day were 368,999 shares, including the following: Atchison, 56,-440; Delaware, Lackawanna & Western, 44,840; Erie, 3,400; Lake Shore, 4,300; Louisville & Nashville, 3,750; Missouri Pacific, 15,680; Northwestern, 17,100; Northern Pacific pre ferred, 3,118; Reading, 60,425; St. Paul, 10,400; Union Pacific, 68,500; Western Union, 5,138.

The stock market was more active again today, and the weakness in the few stocks which monopolize the speculative interest at present was even more pronounced than at any time yet. As usual of late about five stocks figured for about 70 per cent. of the total transactions, while the dealings in all the others were small and insignificant, with slight fluctuations and prices well held, and even fractional advances in a few instances. There was some strength displayed in the early trading, but Boston began to pour out large amounts of Union Pacific and Atchison, which invited further "bear" attacks, and both stocks broke badly, each losing between 2 and 3 per cent. The disappointment over the decisions about the dividend was still powerful enough to depress the former, while the stories of a receiver for Atchison, while denied over and over again, were repeated with considerable effect, and rumors of financial troubles in Boston were circulated, and could be traced to no source. The success attending the demonstrations against those shares encouraged the "bears" to try their hands at other portions of the list, and just after noon, when the dividend had been declared, there was a sharp drive at Lackawanna, and its price was broken 2 points in less than a half hour. A portion of this loss was afterward recovered, but the stock is materially lower this evening. Missouri Pacific had also been treated to the same sort of manipulation, and rumors that Mr. Gould had already made arrangements for large loans were made to do duty against the stock. Outside of Lackawanna there was little in the coal shares, although Reading was active and very firm, and closed with a small improvement. The grangers were subject to some pressure in the early dealings, but the effect was only temporary, and outside of Burlington their fluctuations were small, and their final changes unimportant. Among the specialties there were a few strong spots, and Chattanooga and San Francisco first preferred rose sharply, while Chicago Gas was weak. First prices were quite irregular, and, although there was some strength shown at the opening, it soon died away under the outpouring of Union Pacific and Atchison, with Missouri Pacific. The irregularity disappeared toward noon, when everything became weak, and Chicago Gas became one of the prominent weak shares. There were frequent rallies which, however, were of short duration, and only served to maintain the excitement, and after noon the attack upon Lackawanna checked what promised to be a material recovery. Union Pacific and Atchison dropped lower, until after delivery hour, but in the last few minutes' trading there was some recovery, while the market closed heavy to weak at close to the lowest prices of the day. The active list, with but few unimportant exceptions, is lower to-night. Union Pacific lost 23; Atchison, 13;

Lackawanna, 1<sup>1</sup>4; and Missouri Pacific, Big Four and C., C., C. & I., 1 per cent. each. Railroad bonds did not share in the excitement in the stock list, but were quiet to dull through-out, with no decided tone at any time. There was some animation in the Reading fours, which contributed \$150,000 out of the total day's business of \$1,056,000, but there was no other special feature of any description. The final changes are generally for fractional amounts, and quite evenly divided. The advances include Des Moines & Ft. Dodge firsts, 23, to 85.

Denver fours are down 23, at 9212.

Government bonds were dull and steady. State bonds were dull and without feature. Closing quotations were:

The Ups and Downs of the Market, with the

# TRADING AT CHICAGO.

Range in Prices of Leading Articles. CHICAGO, March 29 .- Wheat was quiet and ruled steady until shortly before 1 o'clock, when the market livened and prices took a sudden upturn. There is little doing in May, though the market is in such a condition that light trading necessitated fairly wide fluctuations. The opening for May was about the same as yesterday's closing, and later sold up 1c, receded 4c, held within a small range, but covering of "shorts" started a two-and-one-half-cent advance, and the closing was 23se higher. July was weaker early, opening 122 4c lower, advanced, with some fluctuations, 11sc, eased off again, and closed 1sc higher than yesterday. The weakness in July was due to a light fall of snow in the north and rains in the south. The rains, although reported light, induced some selling; besides, the indications favored more rain, and the feeling was not so bullish as during the preceding day or two, though the close was stronger in sympathy with May. Corn received but little attention, and the market was dull and but little attention, and the market was dull and inactive the entire session. Operators showed but little disposition to trade to any extent, and transactions were confined within 18 2 4c range. The feeling was comparatively steady, and quotations were about the same as noted for several days past. In oats the trading was lighter, there being little desire on the part of operators to take either side of the market with any degree of freedom, and a quiet and steady feeling prevailed. Trading was only moderately active in hog products, and prices averaged higher. Prices ruled irregular. Early the demand was fairly active, and prices ruled slightly higher, but an easier feeling prevailed later, and prices receded again. During the latter part of the session the market exhibited rather more life, and a firmer feeling was developed. Prices were suddenly The feeling was comparatively steady, and quo-

# DUN & CO.'S WEEKLY REVIEW.

Manufacturers Passing Through an Era of Cheapness-Failures Less Numerous. NEW YORK, March 29 .- R. G. Dun & Co.'s weekly review says: The general tendency of reports indicates that trade is both improving and hopeful. At Omaha business is very good; at Kansas City and Chicago fair, and at Cleveland larger than last year, though profits are smaller. Rapid growth of tributary regions accounts for improvements at far Western points. All the interior money markets are well supplied, but preparation for April settlements has advanced rates here to 4 per cent. on call. No material change appears in collections. Two considerable failures at Milwaukee are attributed to bad

In the woolen trade there is some increase in demand, and wool is more firmly held. The firmness in cotton goods abates with the termina-tion of the great Fall River strike. The iron trade is weaker, and blocks are offered through commission houses at very low prices. Alabama grey forge is offered at \$15.25, and No. 1 foundry at \$17. More business is seen in bar iron here and at Pittsburg, but the rail market continues unsatisfactory. The coal market is pro-nounced the dullest for ten years. At Pittsburg, closing of the Monongahela mines for a fortnight is contemplated, and the trade has been bad and grows worse. The glass business is also de-pressed. Tin is weaker at 21.12c here, and lead

at 3.65c. Another decline in wheat—34c for the week
—with sales of over 70,000,000 bushels here, in spite of some orders for export, comes because spite of some orders for export, comes because a large increase in the acreage of spring wheat is foreshadowed. A heavy failure at Antwerp, on the long side, helped the depression. Corn and oats are unchanged, and pork products a shade stronger. Sugar is in active demand. Coffee is unchanged. Cotton has risen a shade, with sales of 244,000 bales, with an increase of 85,000 bales in port receipts. Once more the week shows a decrease in the average prices of all commodities, which are a third of 1 per cent. lower than a week ago.

lower than a week ago. In iron Messrs. Carnegie and Hewitt have re-cently protested that the railroads, by continu-ing present charges for freight on material and products, will make it impossible for Eastern to compete with Southern works. The era of cheapness makes it possible to extend manufactures in countless directions. Thus, the North Chicago rolling-mill consolidation will commence the production of tin-plates. Exports are expanding in unexpected directions, a British railway being built near the northern frontier of India is using timber exclusively from Washington Ter-

The supply of money is ample, and the Treasury has paid out \$600,000 more than it has taken in. Foreign trade in February showed an increase of nearly 6 per cent. in exports. In March, the blizzard month last year, exports from this city have increased over seven millions, or 35 per cent., while imports have increased 21 per cent., which seems to indicate an excess of over ten millions in imports for the month. The weakest point of late has been the stock market, which has declined about \$1 per share for the week, with rumors of receiverships, and large selling by investors on account of past mismanagement and losses. The selling on foreign account, if long continued, would affect the monetary prospect, and it is growing clearer that the interstate law

as amended has not increased the confidence of The business failures were 240, as compared with a total of 290 last week and 261 the previous week. For the corresponding week of last

#### year the figures were 223. TRADE IN GENERAL.

Wool. BOSTON, March 29.—Buyers have been operating more freely the last few days, and the sales reported for the week foot up 1,870,200 pounds domestic and foreign. Of this amount 1,576,700 pounds were domestic, including 100 pounds of Ohio and Pennsylvania X and XX fleeces at 31@34c, 70,000 pounds of Michigan and New York X fleeces at 30@31c, and 210,000 pounds of Michigan and Ohio delaine at 34@ 36c. One lot of California spring sold at 21c, one of Oregon at 24c, one of fall Texas at 192 193c, and various other lots of California and Territory on the scoured basis of 55@60c. Stocks are steadily being reduced, and supplies of all desirable grades are smaller than for several years past at this time. Prices are fairly maintained. Fine delaine and No. 1 clothing wools are very firm, because none of any consequence are here. On X and XX Ohio and other washed fleeces holders are willing to concede a little, in order to clear. For Michigan, 30c to 31c is a full range. Kentucky and Indiana onequarter to three-eights blood combing are scarce and firm at 29 @32c, but it is hard to find buyers at over 31c. Pulled wools are in good supply, with sales mostly at 29@35e for Western supers. Maine supers are scarce, and are worth 42c, Australian is firm, and closely sold up. Another cargo of 3,000 bales has just arrived from Mel-

#### INDIANAPOLIS MARKETS.

Threatening Weather and a Chilly Atmosphere Put a Slight Check on Trade. Indianapolis, March 29.

In most departments to-day trade was rather quiet, the weather conditions being unpropitious. But few buyers came in on the trains, and mail orders were rather slim. Some genuine spring weather will doubtless bring trade up to the most sanguine expectations, as the retail men have light stocks, and are in good shape financially. In values to-day fluctuations were few. Dry goods, as a rule, are in firm position, and the wholesale men will make no concessions to effect sales. In jobbing prices the provision market is firmer, but not quotably higher. The brighter outlook for the flour market is encouraging millers considerably, and they are increasing their output. Grocers report prices steady, both East and here, on staple articles. Unquestionably the advancing tendency of sugars has increased sales, as for two years they have been selling low. The coffee market does not show as bullish a tendency as a few days ago, and while prices are not quotably lower they are easier in the Eastern markets. Canned goods, on concession in prices, are moving fairly well, while dried fruits are selling slowly. One grocer says if not one pound of dried fruit was put on the market in the next year the stocks on hand would supply the full demand. The produce markets pre-sent little that is new. Poultry is a shade firmer, while eggs and butter, on large receipts and light demand, are weak. Other markets are featureless.

GRAIN. It was an off day in the local market. Nobody seemed to want anything. Wheat ruled dull and nominal in price. Corn was barely steady, and oats were lower. Prices to-day ranged as fol-

# Leading Seed Merchants,

For special quotations, 78 & 80 E. Market St., Indianapolis.

A snow-apple tree which had borne wormy fruit for ten years was, last season, treated as follows with very good results: By means of a hand force-pump the tree was sprayed with Paris green mixture just when the blossoms had fallen and the upturned calyx of the fruit could receive and hold the poison in the spray. This process was repeated after a lapse of ten days, and again three weeks after the time of the second spraying. A few branches were left untouched to test the worth of the operation. There were no wormy apples on the sprayed portion, while nearly all on the unsprayed portion were worm-eaten as usual. Other trees were successfully treated to the three doses of the poison, not only apples, but pears, cherries, plums, quinces, and currant and gooseberry bushes when the caterpillar appeared.

Some crops require an early start in order to get ahead of the weeds, and also to have more time for growth. Among such are carrots, parsnips and beets. Get the seed in the ground as early as possible, and keep the plants free from weeds in order to have them well under way before summer.

What promises to be the largest orange grove in the world, 30,000 trees, is to be planted in Pomona valley, California, by a syndicate of Illinois and Iowa capitalists.

FROM DESPAIR TO JOY. The Painful Story of a Lovely Lady, and How She Finally Secured Hap-

piness.

Mrs. Morton D. Harlan, residing at No. 58 West 25th Street, New York City, has passed through a most wonderful experience. Mrs. Harlan ha happy home and through er devotion to her home duties over-taxed her strength. She had depressed feelings, entire lack Jof energy in life, and finally

a cough at night and morning which grew worse each day. Upon looking in the glass she saw dark circles under her eyes and found that she was growing thinner and losing all interest in life. This painful state of things continued for months until finally she became so weak she could not attend to her duties and was confined to her bed the greater part of the time. One day Mrs. Harlan's very dear friend Mrs. Willard called and was amazed to see her so wan and faded. Two bright heetic spots stood upon each cheek, her lips were blue, her face pinched and drawn, and there was a piteous look in her eyes. Mrs. Willard knew this meant consumption and her heart was touched for her friend. At her earnest request, the use of an English Remedy for consumption was class she saw dark circles under her eyes and

edy for consumption was tried. At the start very little effect could be seen, so great an inroad had the disease made, but by degrees Mrs. Harlan began to regain her lost appetite, then her strength, then her hope, then her health, and she is today in perfect physical condition, wholly as a result of the use of Dr. Acker's English Remedy for Consump-

The lesson of this simple story should be pl in to all. No man or woman can afford to neglect those first symptoms of consumption, which seem so slight but which becomes so terrible unless taken in time. This Great Remedy has saved the lives of hundreds of well known men and women who were on the verge of the grave from consumption but who are well and happs to-day. It is sold universally.
